TANK SPECIFICATIONS

- Dual-radius, semi-elliptical design
- Built for heavy mining application
- Endo-skeleton, designed with structural I-beams for extended life and stability
- Fully baffled; longitudinal and transverse
- Engineered tub-surge control system
- Designed to achieve lowest center of gravity
- Banded manway with safety grate
- Ladder with safety rail
- Anti-skid top walkway with PPE tie-off
- Sump with drain for clean out
- Sealed weatherproof wiring
- LED tail, stop and turn lights
- *Ground Force Field Service available

GROUND FORCE WATER CONTROL SYSTEM (WCS)

See our online WCS Specalog for a complete range of options and specifications.

- Externally mounted, high performance water pump
- Digital in-cab control monitor
- Programmable menu with (4) preset spray settings
 - ✓ Intermittent spray settings for wet-strip, dry-strip watering
 - ✓ On-the-fly, one-touch control for change of individual spray heads
 - ✓ Backlit LCD screen for low-light operations
- Integration of an extensive range of options
 - ✓ Rear spray bar with (4) staggered fan-sprays
 - ✓ Side sprays, hose reels, water cannons, & gravity dump
- Heated component enclosure available for arctic applications
- Optional fire foam system
