WATER CONVERSION KIT
BUMPER CONVERSION

Retrofit & Upgrade Your Existing Fleet to a Ground Force Water Control System

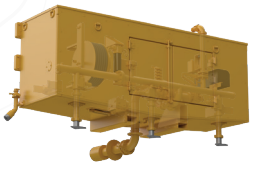

Ground Force Water Conversion kits are engineered to retrofit and upgrade non-Ground Force water tanks and converted dump bodies, delivering proven Ground Force performance with minimal capital investment.

Each conversion kit is engineered for the specifications of your existing truck and come standard with Ground Force Water Control System, three rear spray fans, driver & curb-side side sprays, and a forward-facing electric or hydraulic water cannon. Optional features include hose reels, gravity dumps, additional spray fans, and all kits can be upgraded to a heated & insulated enclosure or fire foam system for fire fighting needs.

KIT FEATURES

- Rear spray bar with (3) rear-facing spray fans
- Driver & curb-side spray fans (2)
- Remote joystick-operated water cannon
- Integration with Ground Force Water Control System
- Digital in-cab LCD touchscreen display
- (6) Customizable spray configurations
- On-The-Fly Control with Quick On/Off
- Intermittent settings for wet-strip, dry-strip watering

OPTIONAL FEATURES

- Heated & Insulated Enclosure
- Hose & Hose Reel
- Fire Foam System
- Heated & Insulated Enclosure
- Hydraulic gravity dump with duckbill

Further optional components are available, talk to your product support representative about addtional features to fit your needs
