

WATER PULL SCRAPER CONVERSION

5,000 - 12,000 gallons / CAT613-657
18,927 - 45,424 liters

Ground Force Water Pulls are designed to be work-ready and user-friendly. Built for heavy construction and mining applications they will tackle all your dust suppression, fire-fighting, and general water truck needs.

Engineered to utilize CAT Wheel Tractor Scrapers (or similar), these low-profile tanks are designed with the same quality and innovation as all Ground Force water tanks but offer large volumes of water in a specialty application.

The Ground Force Water Control System (WCS) comes standard with all water solutions offering clear and simple in-cab digital controls, strategic placement of critical components, and wireless remote operation if desired along with numerous other features.

AVAILABLE WATER PULL MODELS

CLASS	CAPACITY	MODEL
CAT 613	5,000 G (18,927 L)	5W
CAT 611/615	6,500 G (24,605 L)	6.5W
CAT 621/623	8,000 G (30,283 L)	8W
CAT 631/637	10,000 G (37,854 L)	10W
CAT 651/657	12,000 G (45,424 L)	12W

Capacities shown may vary depending on chassis, mine site requirements, or options selected.

Non-Drop Water Pull

Drop-Arm Water Pull

EQUIPMENT FEATURES

- ▲ Ground Force GEN2 Anti-Surge Stabilization System
- ▲ Ground Force Water Control System (WCS)
- ▲ Rear Spray Bar with Rear Spray Fans
- ▲ Internal piping to Water Canon
- ▲ High-Performance Ground Force M4-Series Water Pump
- ▲ Complete Hose Assemblies
- ▲ Exterior Water Level Sight Gauge
- ▲ Double-Walled Oil Cooler
- ▲ 36" Fill Port with Safety Grate
- ▲ Anti-Skid Tank Walkway with PPE Tie-Off
- ▲ Rear Access Ladder with Handrails
- ▲ LED Utility, Stop, Turn, & Tail Lights
- ▲ Replaceable Anode Preparations
- ▲ Flexible Front Mounting System
- ▲ Water Shedders
- ▲ Mud Flaps
- ▲ 12-month, Unlimited-Hour Warranty
- ▲ Digital Technical Manuals on USB

OPTIONS*

- ▲ Wired Remote Water Canon Controls
- ▲ Elkhart Brass EXM2 Electric Water Cannon
- ▲ Specialty Water Canon Nozzles
- ▲ Upgraded Rear Spray Bar with Four (4) Spray Fans
- ▲ Auto-Lube System for Water Pump
- ▲ Replaceable Sacrificial Anodes
- ▲ Stainless Steel Internal Piping
- ▲ 4" Ground-level Hydrant Fill with Anti-Siphon Check Valve
- ▲ Hydraulic 3" Gravity Dump Valve with Fan Spray
- ▲ Front-Mounted Vertical Side Sprays
- ▲ Automatic Water Cannon Drain & Cab Keep-Out Zone
- ▲ 50' x 1-1/2" Hose Reel with Adjustable Nozzle
- ▲ Hose Reel Shut-Off Valve & Air Blow-Down
- ▲ In-Cab Hose Reel Operation
- ▲ Fire Foam Agent System
- ▲ Front Bumper Spray Fans
- ▲ Draft frame Assembly with Fuel Tank
- ▲ Moldboard Assembly
- ▲ Gooseneck Fuel Tank with Ground-level Fill

GROUND FORCE WATER CONTROL SYSTEM - WCS

DIGITAL IN-CAB CONTROL DISPLAY

Backlit LCD screen for low-light operations.

PROGRAMMABLE SPRAY SETTINGS

Pre-built and custom settings for wet/dry watering with one-touch control for operator ease and functionality on the fly.

DUST & FIRE SUPPRESSION INTEGRATION

Streamlined spray fan, spray bar, water canon, hose reel, and rear gravity dump controls.

**Available options may vary depending on chassis, mine site conditions, or other requirements.*
